

SHREYA YADAV

Aspiring Software Engineer | Full-Stack & Web Development | Lucknow, UP
8765780904 | yshre7@gmail.com | github.com/ydvshre | [Portfolio](#)

PROFESSIONAL SUMMARY

Enthusiastic BTech Information Technology student (CGPA: 8.10) at Banasthali Vidyapith with hands-on internship experience building enterprise-grade applications at Tata Advanced Systems Limited. Skilled in full-stack web development, Java Spring ecosystem, Microsoft Power Platform, and database systems. Proven ability to deliver production-level solutions from a university-wide Employee Management System to a real-world enterprise Ticketing System integrated with SharePoint and Power Automate. Driven by a passion for scalable, user-centric software and continuous learning.

WORK EXPERIENCE

Software Development Intern — Tata Advanced Systems Limited (TASL) May 2026 – Jul 2026
45+ Day Summer Internship

- Ticketing System** Designed and developed a full-fledged enterprise
 - Built end-to-end using Microsoft Power Apps (Canvas App), SharePoint as backend database, and Power Automate for workflow automation.
 - Integrated the new system with an existing organizational database, ensuring data consistency and zero downtime migration.
 - Engineered automated notification flows and ticket lifecycle management (create → assign → resolve → close).
- Enhanced UI/UX of the ticketing portal significantly redesigned forms, dashboards, and status views for improved usability across departments.
- Collaborated with cross-functional teams to gather requirements, iterate on feedback, and deliver within timeline constraints.
- Gained practical exposure to enterprise tool ecosystems including SharePoint lists/libraries, Power Automate connectors, and Microsoft 365 integrations.

PROJECTS

Employee Management System — Full-Stack Web Application 2025

Tech Stack: Java, Spring MVC, JPA/Hibernate, Thymeleaf, MySQL | [GitHub Link](#)

- Developed a production-level EMS deployed exclusively on the Banasthali Vidyapith intranet, serving the entire university staff.
- Implemented layered MVC architecture (Controller–Service–Repository) with bean validation, custom business rules, and database integrity enforcement.
- Built features including report generation, secure user authentication, smart card alpha-numeric ID generation, and full CRUD admin workflows.
- Independently handled end-to-end deployment and ensured system stability in a live institutional environment.

Enterprise Ticketing System — Microsoft Power Platform 2026

Tech Stack: Power Apps (Canvas), SharePoint, Power Automate, Microsoft 365

- Architected and built a complete ticketing workflow system during internship at TASL, covering ticket creation, assignment, tracking, escalation, and closure.
- Connected Power Apps front-end to existing SharePoint database with custom connectors and automated approval/notification flows via Power Automate.
- Delivered an enhanced, intuitive UI replacing legacy tools adopted by internal teams for day-to-day IT/operations support.

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL | OOP, Data Structures

Web Development: HTML5, CSS3, Spring MVC, Thymeleaf, JPA/Hibernate, MySQL

Microsoft Power Platform: Power Apps (Canvas), Power Automate, SharePoint, Microsoft 365

Tools & Platforms: GitHub, VS Code, Microsoft Excel (advanced functions), Statistical Analysis

Concepts: Full-Stack Development, Database Design, Layered Architecture, Workflow Automation, AIML (Intermediate)

EDUCATION

B.Tech in Information Technology — Banasthali Vidyapith, Rajasthan Jul 2023 – May 2027
CGPA: 8.10 / 10.0

Class 12th (CBSE) — Kendriya Vidyalaya, Lucknow 2022
Percentage: 78.9%

ACHIEVEMENTS & ACTIVITIES

- Secured an internship at Tata Advanced Systems Limited (TASL) a Tata Group aerospace & defence company.
- Maintained a CGPA of 8.10/10 while simultaneously delivering a production-level institutional project and internship.
- Avid badminton player with multiple school-level championship awards.
- Participated in hackathons and seminars on topic of Enhancing U-NET for Real-World Applications.
